REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: It was agreed that the scope of the compound of formula (II) is outside the scope of formula (II) claimed in the present claimed invention. The secondary references may disclose the compound of formula (I) and (II) such as presented in the previous office action such as Akashi et al and EP'310, but they fails to disclose the use of the compounds in a back layer of a photothermographic material serving as "shelf-aging fog" presented in the argument, and in the Declarations under 37 CFR 1.132 submitted on June 20, 2005 and November 4, 2004. Moreover, the Declarations submitted on June 20, 2005 and November 4, 2004 obviate any rejection set forth in the office action of record due to superiority of the self ageing fog and the unpredictability of the nitrogen containing compound. Accordingly, the rejections set forth in the office action of record are withdrawn and the claims are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
